

## IT PROFESSIONAL SERVICES

The Department of Information Technology IT Professional Services Master Agreements are available to All Using State Agencies and Political Subdivisions. Agencies may choose a vendor based on the best qualified candidate who fulfills their business needs. The lower pricing and electronic processing will further the state's cost saving efforts.

Master Agreements were awarded to four (4) IT Consulting Firms. Two (2) of the vendors are DAS certified Small Business Enterprises (SBEs), one (1) vendor is a Minority-owned Business Enterprise (MBE) and one (1) vendor is a large business that has an affiliation with two (2) SBE vendors.

The position classifications were collapsed into eleven (11) categories and twenty-six (26) position titles. Each vendor developed a website for agency and political subdivision use. An on-line "fill able" form is available for contract users to make a request. Each vendor is required to e-mail the requestor a minimum of three (3) qualified resumes within five (5) business days from the date of the request. Any resource requested must be available within one (1) week from the date of the purchase order unless otherwise agreed to by the agency.

### REPORTING

Each quarter all vendors are required to submit to DOIT Contracts and Purchasing Division a management report. The report must contain the following data; Contracted dollars by agency by vendor (if subcontractors are used) and total number of dollars paid to SBE/MBE vendors by company. This will ensure an ongoing commitment to provide equal opportunity to Small Business Enterprises and Minority-owned Business Enterprises.

DOIT's goal is a consolidated, streamlined and electronic approach to reduce costs for the State of Connecticut.
